Sound knowledge in JavaScript, React.js, Node.js, Express.js, MongoDB, & other UI frameworks. Build reusable code for the future. use while optimizing web performance.

SKILLS

- **Frontend:** JavaScript, React.js, Astro.js, Tailwind CSS, MUI, HTML, CSS.
- **Backend:** Node.js, Express.js, MongoDB.
- **Tools :** Git & GitHub, VScode.
- **Languages:** English, Hindi.

WORK EXPERIENCE

Web developer, Shrinkcom Pvt. Ltd   **March 2024 - Jan 2025**

- Developed and maintained high-performing MERN stack applications, ensuring scalability and responsiveness for over 10,000 users.
- Developed user-friendly interfaces with React.js and Tailwind CSS, resulting in significantly improved user engagement and interaction.
- Developed RESTful APIs using Node.js and Express.js, enhancing the efficiency of data retrieval processes and overall system performance.
- Worked closely with a team of developers to build and deliver a scalable platform, ensuring a timely and successful product launch.
- Partnered with cross-functional teams to implement third-party payment gateways and analytics tools, streamlining transaction processing and data insights.

Frontend developer Interns, Nextloop technologies   **Aug 2023 - Fab 2024**

- Assisted in designing and developing responsive user interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Built dynamic and interactive web components using React.js, enhancing user experience and interface performance.
- Utilized Tailwind CSS to implement modern design systems, improving the overall design consistency across pages.
- Collaborated with the UI/UX team to transform wireframes and mockups into functional web pages.
- Participated in code reviews and adopted best practices for writing clean, maintainable code in the team.
- Worked with Git for version control, collaborating with developers on GitHub to maintain project code.
- Troubleshot and resolved front-end bugs, improving the stability and performance of the user interface.

PROJECTS

School Dekho - Educational Platform   *Professional Project | GitHub*

- Designed and developed a comprehensive educational platform to help users discover, compare, and explore schools effortlessly.
- Built the frontend using React.js and styled it with Tailwind CSS to ensure a responsive and user-friendly experience.
- Developed robust RESTful APIs with Node.js and Express.js to handle user data, school listings, and search functionalities.
- Utilized MongoDB for efficient data storage and retrieval, managing extensive school data and user preferences.
- Implemented features such as dynamic search, filters, user authentication, and a content management system for administrators.
- Ensured SEO-friendly design and fast page loads to improve search engine rankings and user engagement.

E-Commerce Platform (MERN Stack)   *Personal Project | GitHub*

- Built a scalable e-commerce platform using the MERN stack with key features like user authentication, product management, and secure payment integration.
- Developed a responsive and user-friendly frontend with React.js and Tailwind CSS, implementing features like product search, filters, and a shopping cart.
- Designed and implemented RESTful APIs using Node.js and Express.js for backend functionality, handling authentication, product data, and order management.
- Used JWT for secure user authentication and role-based access control for admin functionality.
- Integrated Stripe API for secure and seamless payment processing.
- Deployed the application on Heroku, making it accessible to users with live functionality.

EDUCATION

Master of Computer Application   Jun 2022 - July 2024
RGPV University

Bachelor of Science in Computer application   Jun 2018 - Jun 2021
DAVV University Indore
